

Last Week of After-Stock-Taking Bargains

The success of this sale has been far beyond our expectations. The bargains offered were appreciated and quickly snapped up. The bargains we feature this week are equally as good, if not better. We advise early shopping.

TWO MORE DEFENDERS FOR U. S. NAVY

NORTH DAKOTA, UNCLE SAM'S SPEEDIEST DREADNOUGHT.

Although the North Dakota was launched only Nov. 10, 1908, she is now ready for business. She is modeled closely upon the British Dreadnought, although she is an improvement over that famous fighter. She has armor around her smokestacks and uptakes, which the Dreadnought has not. She is also provided with the new "spider" masts, from which the gun fire of the ship will be directed. A peculiarity of the North Dakota is that all ten of her big twelve inch guns can be trained on the enemy at the same time. Her speed is 22.25 knots. Her normal displacement is 20,000 tons.

WASHINGTON, D. C., Feb. 24.—America will probably have two battleships greater in size and power than any possessed by or building for any other power today. It was learned today on good authority that the House Committee on Naval Affairs will probably report favorably on the program calling for two mammoth battleships of 28,000 tons each.

The cost of the gigantic machines of destruction favored by the naval committee will be \$11,000,000 each. These craft would mark as great an advance in the art of warship building as did the launching of the British Dreadnought some three years ago.

In addition to the battleships the program calls for one repair ship, two colliers, five submarines and three torpedo boat destroyers.

JAPANESE GETTING EXCITED AGAIN.

TOKIO, Feb. 24.—The leading newspapers of this city today featured long special cablegrams from America telling of the recurrence of the anti-Japanese agitation in San Francisco. Extracts from speeches recently delivered by Gen. J. Franklin Bell, the former chief of staff, and the Hon. Leslie M. Shaw, former Secretary of the Treasury, declaring war between America and Japan to be inevitable, were reprinted.

The forecasts of General Bell and former Secretary Shaw have made a profound impression upon the Japanese people, and the remarks of the soldier and the statesman are giving a very gloomy impression here as to the outlook.

TAFT PRODS UP LEGISLATORS.

WASHINGTON, D. C., Feb. 24.—President Taft today held conferences with members of both houses, urging the passage of the most important administration bills and the fulfillment thereby of their party pledges.

It was announced tonight that the Senate will vote on the postal savings bank bill on March 3.

MEAT PACKERS UP AGAINST INDICTMENT.

NEW YORK, Feb. 24.—From present indications it appears that fifteen indictments will be brought in tomorrow against the packing interests mixed up in the storage plants scandal in connection with the storage and sale of spoiled meats.

NATIONAL GUARD

TO BE INSPECTED

Major Dunning of the 20th Infantry will inspect the National Guard of Hawaii at Kapiolani Park next Sunday. In relation to the same, the following orders have been issued:

National Guard of Hawaii.
Headquarters, First Infantry,
Honolulu, Feb. 24, 1910.

General Orders 44:

1.—Companies and detachments of the First Infantry, National Guard of Hawaii, stationed at Honolulu, will assemble under arms at the Drillshed on Sunday, February 27, 1910, at 7:30 a. m., with full field kit, in pursuance of General Order 1, A. G. O., February 4, 1910, relative to being inspected by Major Samuel W. Dunning, 20th Infantry, U. S. A., at Kapiolani Park.

2.—The quartermaster's department will furnish the necessary transportation and subsistence.

3.—Uniform: Service.

4.—Accoutrements: Pack to contain shelter half, pole, pins, blanket, mosquito bar, poncho, comb, soap, stockings, tooth brush, towel and rope. Haversack to contain meat can, knife, fork, spoon and cup. Canteen.

5.—Commanding officers of companies and detachments will make the following returns and reports:

(a) Returns in duplicate of all ordnance, quartermaster, medical and signal property and stores.

(b) Reports in duplicate of all officers and enlisted men present and absent at time of inspection, such

reports to be handed to the inspecting officer at time of inspection.

6.—All officers charged with the keeping of records and accounts will submit the same to the inspecting officer for examination.

By order of Colonel Ziegler:
T. P. CUMMINS,
Captain and Adjutant, 1st Inf.,
N. G. H.

JAPANESE FORT

PROWLER FINED

The Japanese who was caught prowling about Fort De Russy during the early hours of the other morning was given a fine of twenty-five dollars and costs by the civil authorities, and a severe reprimand. A number of Japanese have been arrested on this post since work was begun on the fortifications, and it is hoped that this action of the civil authorities will keep them from wandering around Uncle Sam's fighting grounds.

The Parion
FORMERLY THE KASH COR. HOTEL & FORT STS.

FORT DE RUSSY ITEMS

The chief quartermaster, Department of California, Lieut.-Col. Von Schrader, will arrive on the transport Crook, which is expected here Sunday. It is expected that he will visit this post and inspect the workings of the quartermaster department here. Invoices have been received for many supplies to be brought on that transport, all of which are for the quartermaster here. The new telephone system will be installed upon the receipt of these supplies, and the light wagon train arranged.

To Shafter.
Musician Stumpf of Company G of the Engineers was sent to Fort Shafter yesterday to be operated upon. Musician Stumpf has been in Cuba, and his rapid recovery is hoped for by all the members of the same company was also sent to the hospital at Fort Shafter for treatment, and upon recovery will leave that post for his detachment.

Details.
Private Hammond of Company G has been detailed as musician to relieve Musician Stumpf and has been relieved in the post dining hall by Private Ketchum. Private Nemeth has been relieved, temporarily, from duty with the survey detachments and will report for duty at this post. Corporal Emmerson has been detailed in the post drafting room and will be for duty there with Lance Corporal Albert Dudzik. Corporal Dudzik will leave this post within the next few days in order to check over some of the survey work, and upon completion of that duty will return to his work in the drafting room here.

Map Work.
A letter was received at this post yesterday from the Chief of Engineers of the Department of California, in which he gives the survey detachments working out of this post great credit for the work that is being done on the survey of this island. The map of the island is progressing rapidly, and the detachments are fast closing in toward the center of the island. No new detachments will be sent out from this post, as the present force will be able to close in the survey.

From Camps.
Both the wagon and pack trains arrived in this camp today from the survey detachments and brought with them many new records for the draftsmen of this camp. Many articles for the post quartermaster were also returned by these trains, which, when leaving this post, took new supplies to the camps. The new light wagon train will begin operations the first of the week and will make trips to the mountain camps.

Painting.
Most of the buildings occupied by the non-commissioned officers at this post are being improved and repainted. Porches are being added

and the grounds surrounding them greatly improved. Within a short time the post hospital is to be repainted and a number of the other post buildings improved.

Drafting Room.
The post drafting room is to be enlarged and many improvements made therein. The work of putting together the sketches received from the detachments is done there, and as the survey is being finished the amount of room necessary for the proper handling of these maps has been greatly increasing. Many supplies for the photographing of these maps are already on hand and many more are expected on the next transport.

TRENTON, N. J.—Miss Alice M. Trimble, a pretty Trenton girl, proved herself a real heroine when she rode Portico, a valuable horse, a distance of twenty-five miles to save her mother and little sister from possible death.

Miss Trimble and her family were visiting relatives at Flemington. Her mother and sister were suddenly taken ill, and as it was impossible to get a physician in the vicinity, the girl, who is a brave horsewoman, volunteered to ride to this city in order to summon the family physician.

Her relatives did not want her to undertake such a journey alone, but their persuasions could not deter her from her purpose, and she undertook the ride. As it seemed to her to be a ride against death she made Portico let out his full speed, and although several times the animal almost threw her she reached this city in record-breaking time, and soon afterward Dr. James Gordon was speeding on his way in an automobile to the bedside of his patients.

Miss Trimble did not think she had accomplished any great feat. When asked how she was able to make such great speed, she replied: "Portico did all the work. I talked to him and told him mother and sister were dying, and he understood. I did not even have to urge him on. I did not have time to think of the darkness and the dangerous roads, as it took me all my time to keep my seat. No other horse could have made the trip like Portico. I love him."

Mrs. Trimble and her younger daughter are out of danger. Dr. Gordon admitted that if the family had delayed calling a physician much longer death would have resulted.

Robert J. Trimble, father of the brave girl, purchased Portico several years ago and gave him to his daughter. The animal was then practically wild, but Miss Trimble trained him, and the horse has shown more affection for her since than for anyone else, even Mr. Trimble. Miss Trimble has been accomplishing marvelous equestrian feats since childhood.

RECREATIONS

PARADE PICTURES AT ART.

The moving pictures of the Floral Parade taken by Eddie Fernandez will be shown this evening and tomorrow night at the Art Theater. The reel was run off yesterday and the parade scenes came out excellently. The actions of the spirited horses ridden in the parade were very good as the pictures taken seem to have caught them when they were showing excitement preceding the start. The views of the floats are also clear as are the decorated automobiles. Fortunately the photographer had placed his picture machine in a position that did not take the passing of the Rapid Transit cars during the parade. In addition to this picture there is an exceptionally good one of Yosemite Valley, which gives a good view of the beautiful park the party of Bulletin ladies will visit this summer. The Bulletin is issuing complimentary tickets to the Art to all the ladies who intend entering the voting contest.

THE PARK THEATER.

"The Winning Boat" is the feature film for the balance of the week at the Park Theater. It shows pleasing river scenes and an exciting motor boat race. The climax of this picture makes it a film of exceeding interest. The usual good vaudeville and music is included in the week-end bill.

PUBLIC LANDS

WILL BE SOLD

Preparations are being made to sell off some city property both in Honolulu and Hilo, at public auction, in the course of six or eight weeks. This is to be done for the purpose of raising money with which to acquire land along certain streets in this city which need widening.

It is expected that no less than \$20,000—and it is hoped that the amount will be a great deal larger—will be taken in at this sale of public land.

Governor Frear and Marston Campbell have been working for some time getting this sale into shape.

There are many city improvements to be made, including a site for the Carnegie Library, land for the College of Hawaii and a site for the Kaimuki reservoir. The funds in the public treasury will not permit of the purchase of the land at present. Under a law passed recently, however, the government has the right to sell public land in order to acquire funds for the purchase of other land for public purposes, or to exchange government land for other property.

A SUGGESTION ON ECZEMA.

It is suggested that eczema sufferers ask the Honolulu Drug Co., Fort Street, of this city, what reports he is getting from the patients who have used the oil of wintergreen liquid compound, D. D. D. Prescription.
